Solving for the area of a rectangle

```
┌─────────────────────┐
│        Start        │
└─────────────────────┘
           │
           ▼
     length=0,width=0,area=0
           │
           ▼
┌─────────────────────┐
│        Input        │
│    length,width     │
└─────────────────────┘
           │
           ▼
┌─────────────────────┐
│       area=         │
│   (length)(width)   │
└─────────────────────┘
           │
           ▼
     print area
           │
           ▼
┌─────────────────────┐
│         End         │
└─────────────────────┘
```
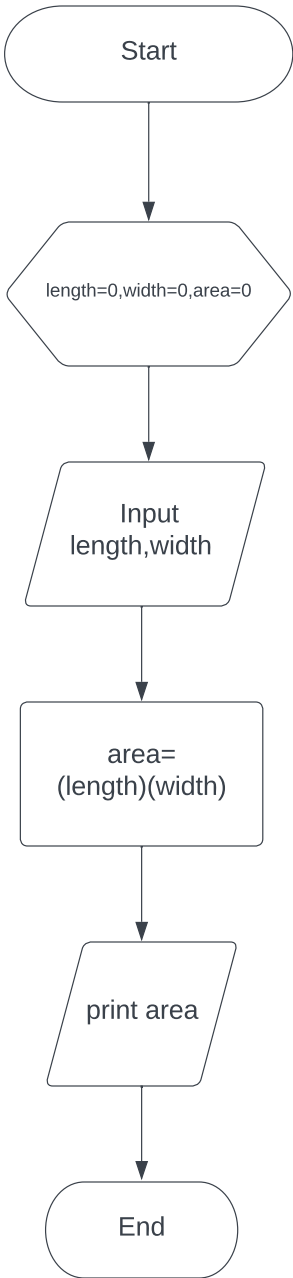

Step 1. Start
Step 2. Initiate length, width, area
Step 3. Input length, width
Step 4. Compute for the area of a rectangle
Step 5. Print the area
Step 6. End
